Far Hills, NJ: February 1, 2019—The Arc of Somerset County is proud to announce they are one of 5 non-profit organizations selected to receive granted funding over the next three years from the Far Hills Race Meeting Association and Robert Wood Johnson University Hospital Somerset, and RWJ Barnabas

Health Facility for the advancement of community health services in the Somerset County Region.

The Arc of Somerset County provides a full range of comprehensive services for children, adolescents and adults with Intellectual/ developmental disabilities.

Among the many community based services, is their transition and employment program which has proudly supported the cleanup effort at the Annual Far Hills Race Meeting Associations' Steeplechase Event each October for the last three years.

The grant funds will be used to improve access to preventative health care as well as to enhance the health outcomes for the individuals served at The Arc. Some of these include access to routine and preventative and behavioral health care for the Arc of Somerset County's lower income families that are served. In addition, in partnership with Robert Wood Johnson University Hospital Somerset, The Arc of Somerset County will provide professional training and development for the Hospital staff to ensure comprehensive and coordinated care of our community members with disabilities.

"This partnership is the epitome of collaboration and cooperation which will ultimately enhance health outcomes and access to our Somerset County residents and in particular those with disabilities", states Lauren Frary, Executive Director for The Arc of Somerset County. "We are honored to be a part of this outstanding initiative and proud to be associated with both the Far Hills Race Meeting Association and Robert Wood Johnson/ Barnabas Health Care system".
